Lettuce Varieties

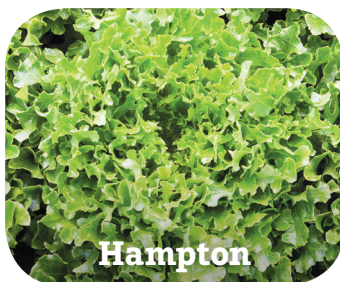

— For Commercial Growers in the Pacific Northwest —

High Mowing offers over 50 varieties of lettuce, including baby leaf, mini and full sized heads, and a wide selection of pelleted seed. We constantly seek out high quality varieties with uniformity in growth, adaptability to variable weather, and strong resistances to diseases like downy mildew.

Eazyleaf

Ezrilla

Hampton

Our Eazyleaf varieties are suitable for production methods that maximize yield and minimize weeding. They can be harvested as mini head lettuces or as a loose leaf lettuce blend. Available as pelleted seed.

Ezrilla is a green tango-type with highly incised leaves and sweet, blanched centers. HR: **APH, DM (16-32), TB, TBSV** / IR: **LMV** / **MTO-30**

Hampton is a voluminous green oak leaf with dark green shiny leaves and narrow attachment points. HR: **APH, DM (16-32), TB, TBSV** / IR: **LMV** / **MTO-30**

Brentwood

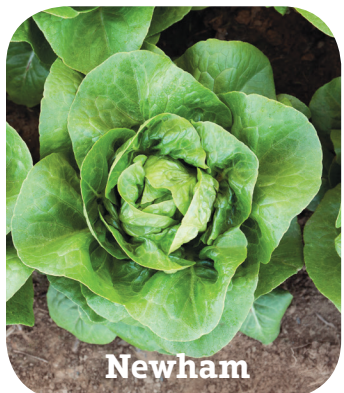

Stanford

Buckley is a glossy red oak leaf that grows in an upright rosette. HR: **APH, DM (16-32), TBSV** / **MTO-30**

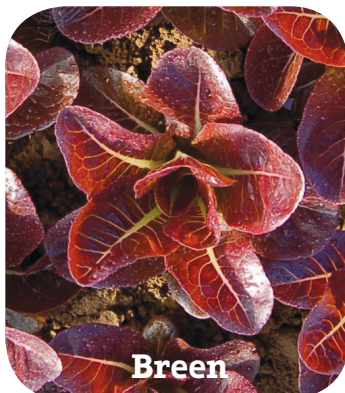

Brentwood is an attractive red tango-type with dark red upper foliage and light green centers. HR: **APH, DM (16-32), FW** / **MTO-30**

new **Stanford** has the leaf shape and texture of a tender butterhead, but has the added benefit of truly upright growth, similar to a mini romaine. HR: **APH, DM (16-33), TBSV** / **MTO-30**

Mini Sized Heads

Newham

Breen

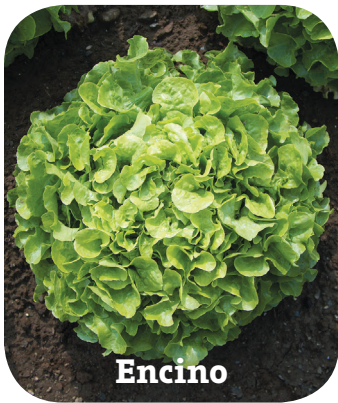

Newham is a highly modern green romaine with the look, yield and resistances you want. Crispy with well-filled hearts and the flavor of the best butterhead. HR **APH, DM (16-21, 23-26, 28-32), LRA** / IR: **CR, LMV** / **MTO-30**

Breen Mini red romaine with unique coloring and a great disease package suitable for all seasons. Beautiful contrasting red-bronze leaves with pronounced pale green mid-ribs and veining. Produces very small, personal-sized heads excellent for CSA boxes. Available as raw or pelleted seed. HR: **DM (16-21, 29, 32), TBSV** / **MTO-30**

Other varieties we recommend (also available pelleted):
Spretnak and Pomegranate Crunch.

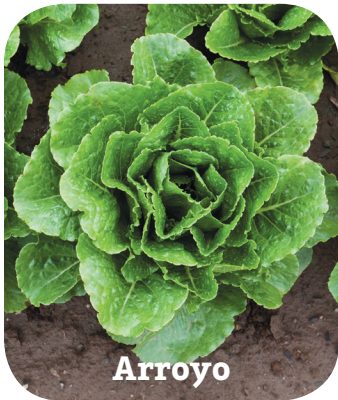

Full Sized Heads

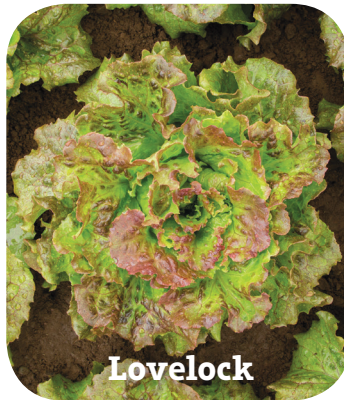

Encino

Cantarix

Arroyo

Lovelock

Encino is an attractive oakleaf with fine, buttery leaves and great adaptability in all seasonal slots. Strong against tip burn, bolting and downy mildew. High Mowing is proud to be the exclusive producer of organic seed for this variety thanks to our partnership with Vitalis Organic Seeds. Available raw or pelleted. HR: **APH, DM (16-26, 28, 32), LMV, TBSV / MTO-30**

Cantarix is a red oak leaf with dark red, lightly savoyed leaves that taper to a lime green center. Dense heads with lobed leaves provide a nice complement to Encino. Sweet, buttery leaves with excellent flavor. HR: **APH, DM (16-26, 28, 32), TBSV / MTO-30**

Aerostar Mid-size dark green romaine with excellent disease resistance. A dual-purpose variety that works well for medium size romaine heads or as a baby leaf. Dark green leaves are relatively smooth, heading up well all season long; an essential component of our DMR Salad Mix. From Vitalis Organic Seeds. HR: **DM (16-27, 29, 32), LMV / MTO-30**

Lovelock is a heat tolerant summer crisp with whorls of bright green leaves and deep red coloring on the leaf margins. Heads close in late at maturity forming a dense, crisp head. High Mowing is proud to be the exclusive producer of organic seed for this variety thanks to our partnership with Vitalis Organic Seeds. Available raw or pelleted. HR: **DM (1-27, 29, 32), LMV / MTO-30**

Baby leaf

Blade

Bolsachica

Blade is a gorgeous, narrow deep purple leaf with upright habit and excellent color even in low light conditions. HR: **APH, DM (16-32), TBSV / MTO-30**

Bolsachica has nicely serrated, thick green leaves with upright habit and small leaf attachment. Part of our DMR Blend. HR: **APH, DM (16-26, 28, 32), TBSV / IR: LMV / MTO-30**

Celinet is a slow growing green leaf that offers a long harvest window and uniquely frilled dark green leaves. HR: **APH, DM (16-32), TBSV / IR: LMV / MTO-30**

DMR Salad Blend is a mix of beautiful red and green leaves with exceptional disease resistance for indoor or outdoor production. Ideal for overwintering! HR: **DM (most varieties resistant to races 1-32)**

Celinet

DMR Salad Blend

RESISTANCE KEY: HR - High Resistance, IR - Intermediate Resistance, **APH** - Aphids, **BR** - Bottom Rot, **CR** - Corky Root, **DM** - Downy Mildew (race specified if known), **LD** - Lettuce Drop, **White Mold**, **Sclerotinia**, **LMV** - Lettuce Mosaic Virus, **LNSV** - Leaf Necrotic Stunt Virus, **MTO-10**, **MTO-30** - indicates that 0 seeds out of 10,000 or 30,000 seeds have tested positive, respectively (aphid resistant varieties are bred to reduce the spread of LMV from other crops or non-resistant varieties). **TB** - Tip Burn
